Project Title: LEGAL COMPASS

Domain: (Select all relevant Options) -

1. Artificial Intelligence/Machine Learning
2. Natural Language Processing

Problem Statement:

Access to legal records, mainly in a country like India with a complicated legal machine, is frequently confined due to excessive fees, lack of expertise, and difficulty in know-how criminal jargon. Many individuals, specially from rural areas, face challenges in obtaining timely legal advice. This results in incorrect information, delayed justice, or poor criminal decisions.

Proposed Solution:

The solution involves developing a web-based AI-powered chatbot that offers simplified legal steerage on constitutional subjects. The chatbot will leverage Natural Language Processing (NLP) to apprehend consumer queries and Machine Learning (ML) strategies to classify and generate responses.

Unique/Distinctive feature of the solution:

Our *Indian Constitution Guide chatbot* provides unique solutions by simplifying the complex legal concepts of Indian Constitution to the general public. Its key features include *AI-powered law assistance, which combines rules-based reasoning and machine learning to provide real-time answers to user questions. The chatbot primarily focuses on **constitutional rights and services, making it more relevant to Indian citizens. Additionally, it provides **cost-effective, flexible* legal assistance, providing access to legal information without the need for professional advice. Its ease of use and accessibility make it a powerful tool for democratizing legal literacy among diverse audiences.

Tools/Technology Uses:

1)Hardware Requirements (Minimum Requirements):

- a)Processor:
- b) RAM:
- c) Storage:
- d) Graphics Card:
- e) Others:

2)Software Requirements (Minimum Requirements):

- a)Operating System:
- b) Development Tools:
- c) Database:
- d) Web Browser:
- e) Others:

3)Others (If any):

- 1.Botpress
- 2.Html/css/js
- 3.Editor

PRANVEER SINGH INSTITUTE OF TECHNOLOGY

(Proposal Evaluation Sheet Should be printed on a Separate Page)

(To be Filled by Faculty/Evaluator)

Proposal Evaluation:

1. Right Identification of the Problem (Appropriate selection of the problem)?
a) Excellent b) Good c) Needs Improvement d) Unacceptable
2. Relevance of the Solution (Adequately addressing the problem/need)?
a) Excellent b) Good c) Needs Improvement d) Unacceptable
3. Innovativeness in the Solution (Distinctive innovative components/features of the solution)?
a) Excellent b) Good c) Needs Improvement d) Unacceptable
4. Uniqueness of the Solution (Intellectual Property Component)?
a) Excellent b) Good c) Needs Improvement d) Unacceptable

Improvements/ Suggestions by the Evaluator:

1.	
2.	
3.	
4.	

Name of Faculty:

Designation:

Signature with Date:

Guidelines:

- One Proposal per team will be submitted by the team leader only.
- A Team can have maximum 5 Members.

PRANVEER SINGH INSTITUTE OF TECHNOLOGY

- For Heading font Size=14, Content font size =12, single spacing, Times New Roman type only.
- Maximum Proposal length may 3 pages excluding evaluation sheet.
